WE WOULD GLADLY

Give \$100

If we could write an advertisement, or put up a talk that would convince every prospective purchaser of a buggy in this end of the state that we are positively selling the

Highest Grade Buggy

That is sold in this section. The fault is with us and not the buggy. We have that very thing and are proving it with the

Broadest Guarantee

You ever had given you on any vehicle you ever bought. We know it doesn't make any difference to you why we can sell at such extremely low prices but it does to some people. We heard last week that a buggy man said we must steal our jobs and get them shipped "DEAD HEAD" by the railroad. However, that may be, we leave you to judge.

SERIOUS HITCH

Over Appointment of State Inspector of Factories.

Governor Beckham and Commissioner Nail Unable to Agree Upon Appointment.

The hitch over the appointment of a State factory inspector is still on and there seems no prospect of an early agreement between Gov. Beckham and Commissioner of Agriculture Nail as to the appointment.

The law provides that the appointment shall be made by the Commissioner of Agriculture subject to the approval of the Governor. Commissioner Nail wants the place to go to Andy Ludwig, of Louisville, who he thinks is the choice of a majority of the labor element of the state. Gov. Beckham is backing James Magill, a protege of Col. John H. Whallen, and is unwavering in his support of him.

The Commissioner and the Governor held a long conference at the Executive office yesterday morning at which the subject was discussed, but at the close of the conference they were no nearer an agreement than at the beginning of it.—Frankfort Journal.

ANDREE HEARD FROM

Slain by Eskimos in North America Two Years Ago.

Apparently Reliable Information From the Daring Aeronaut.

Aeronaut Andree, with his two companions, were killed two years ago by Eskimos 1,800 miles north of York Factory, Northwest British Territory. This is the report brought by the Rev. Dr. Ferlies, a Church of England clergyman, who arrived at Winnipeg, Manitoba, from York Factory. Dr. Ferlies says he was given the information by an agent of the Hudson Bay Company, who was given the story by the chief of the Eskimos, who killed the men. They saw, it is said, Andree's balloon alight, and on their approach one of Andree's companions fired a gun, which is the Eskimo signal for combat. The Eskimos then killed the explorers.

Andree set sail in a balloon from Spitzbergen July 7, 1897, just five years ago, in search of the north pole, and this is the first authentic news from his ill-starred expedition.

The horse struck her and the buggy passed over her head, inflicting very serious and perhaps fatal injuries. Though still alive she had not been restored to consciousness yesterday morning. She sustained other severe bruises and her recovery is very doubtful.
